

## LIVING LARGE, WORKING HARD IN THE BUILDING

Mike Quinlivan of Pension Planning \$olutions on the 10th floor is back in his office after a six-week vacation in southern Ireland. And what a vacation it was! Mike and his wife, Kay, stayed in three different Airbnb's – all with glorious water views. Mike loves the Irish people and their alcoholic beverages. Gunpowder Gin is Mike's favorite drink of the moment, but he's up for most any craft gin at an Irish pub.

Dawn Payne of Dusk to Dawn on floor 2 is on television every day until July with a new commercial for her cosmetics business at The Guilford Building. Watch for Dawn on FOX, CNN, TLC, OXYGEN as well as National Geographic and The History Channel and ID Channel. Dawn looks like she's made for television, and it's fun to see glimpses of our building in the commercial.

Jahci Dixon is new to the building. She is a registered nurse at Wesley Long Hospital and is establishing a health and wellness business in suite 821-23 effective May 1. Jahci will offer IV infusions of vitamins and liquids.

Betty Toussaint has expanded her law practice in the building. Toussaint Law is now located in a large office suite on the north side of the second floor (210-215). The décor in Betty's offices is dramatic and welcoming, and she now has space to accommodate her growing staff .

**THE GUILFORD BUILDING WILL BE CLOSED IN OBSERVANCE OF  
MEMORIAL DAY ON MONDAY, MAY 29, 2023.**
