## DOWNTOWN GREENSBORO INC. HELPS CENTER CITY BUSINESSES

Joseph Schorr, an economic development analyst at Downtown Greensboro Inc. (DGI), is trying to inventory all downtown businesses. Says Joseph: "Storefront and street-level businesses are fairly easy to track, but I face challenges where businesses aren't as visible." And many businesses are tucked away in The Guilford Building.

DGI wants to support downtown businesses, but to do so, it needs to know what businesses exist downtown. Here is Joseph's contact information if you'd like more visibility and center city connections. Call 336-541-0512 or see [www.downtowngreensboro.org](http://www.downtowngreensboro.org).

## NEW TO THE BUILDING

**Malcolm Miller** has moved his photography studio to Suite 426-27. His two-room space seems just right for all his equipment and projects.

**Laquita Humphrey** is another newcomer to the building. She is in Room 801 where she has a private office and studio. Laquita is an upbeat person with lots on her plate right now.

## WINDOWS UP

The upper sash of an office window may slip down creating an air gap at the top of the window unit. This usually happens because a window was opened and then not completely closed and locked securely in place.

It is a good idea to check windows now as the hot weather begins. For assistance with a window, call the business office at (336) 272-0038 or ask any staff member.

The Guilford Building will be closed on Thursday, July 4, 2024, in celebration of Independence Day.
